SPECIAL PIECES
FOR CONTINUOUS FINISHES

With the same texture as our non-slip mosaics, our **Corner and Cove pieces** create a premium finish for your project. They are perfect for finishing off the **corners of steps**, pool edges and transitions between floors and vertical walls.

Made from glass, an environmentally friendly material, the special **Corner and Cove pieces** by **ezarri** make your project both immaculate-looking and safe. The natural, elegant style of your space is extended through edges and half-round trims, thus guaranteeing the perfect composition for your project.

You will find these special pieces for all the inaugural items in the 50 line. 10 avant-garde items to put the finishing touch on your project, whether it is made up of 50 mm tiles or 25 mm.

Con la misma textura que los mosaicos antideslizantes, las **piezas Corner y Cove** proporcionan una terminación premium para tu proyecto. Resultan perfectas para rematar las **aristas de escalones**, coronaciones de piscina y transiciones entre pavimentos y paredes verticales.

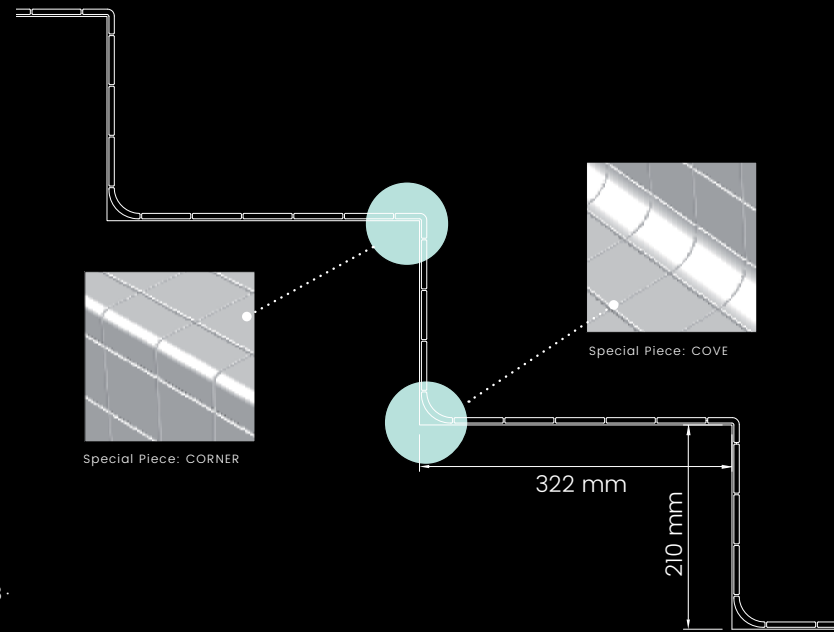

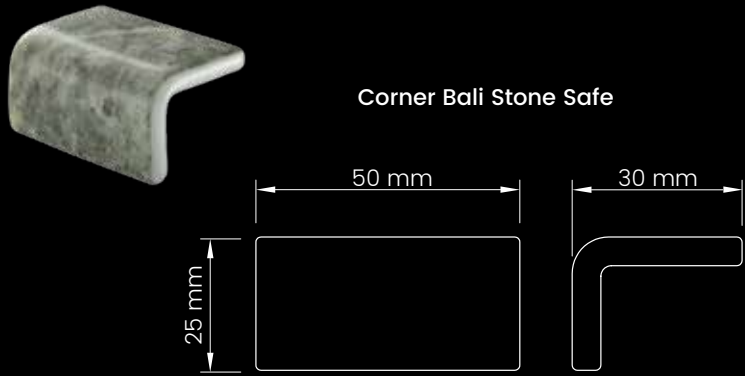

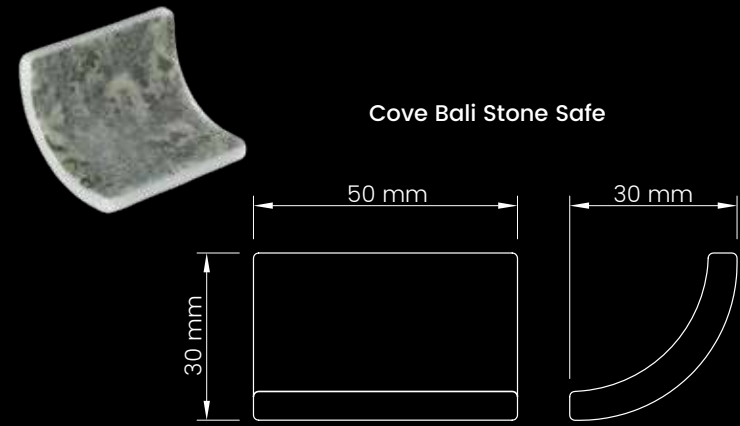

Fabricadas en un material ecológico como es el vidrio, las piezas especiales **Corner y Cove** de **ezarri** proporcionan unos acabados de cuidada estética, además de seguros. La naturalidad y la elegancia de los espacios continúa en cantos y medias cañas garantizando una composición perfecta del proyecto.

Las mismas referencias que inauguran la familia 50, las podrás encontrar en estas nuevas piezas especiales. 10 referencias de vanguardia, con las que rematar los proyectos realizados tanto con fichas de 50mm como de 25mm de lado.

Jouissant de la même texture que les carreaux antidérapants, **les pièces Corner et Cove** offrent une finition de qualité supérieure à votre projet. Elles sont parfaites pour assurer **la finition des marches**, des margelles de piscine et des zones de transition entre les revêtements de sol et les murs verticaux.

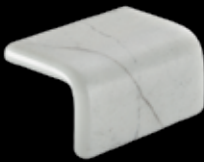

Fabriquées dans un matériau écologique tel que le verre, les pièces spéciales **Corner et Cove** d'**ezarri** offrent des finitions qui, outre leur esthétique soignée, sont synonymes de sécurité. Le naturel et l'élégance des espaces se poursuivent jusque sur les bords et les plinthes, garantissant une parfaite composition du projet.

Les références qui inaugurent la famille 50 sont proposées via ces nouvelles pièces spéciales. 10 références avant-gardistes permettant d'assurer la finition des projets réalisés avec des pièces de 50 et de 25 mm de côté.

ezarri, an Eco-Friendly company.

Notre engagement en faveur du développement durable se reflète dans chacun de nos projets, du début à la fin. C'est pourquoi tout le verre utilisé par **ezarri** est recyclé à 100 %.

Nos responsabilités en matière de protection de l'environnement nous ont amenés à travailler jusqu'à obtenir trois certifications qui attestent du respect et du soin que nous portons à la planète. Ce pacte avec la nature est un critère clé chez **ezarri**, au point qu'il est l'un des points forts de la philosophie de l'entreprise.

*100 % verre recyclé.
Plus de 96 % du produit final
provient de verre recyclé*

*Certification Environnementale
de Produit ISO 14021*

*Certification de Gestion
Environnementale ISO 14001*

ezarri considers joints to be an essential element within its colorful designs. The aesthetic component of the joint used is very important and when combined with the **ezarri** mosaic tile ranges can give surprising results. By combining different colored tiles and joints we have been able to develop a new range of color schemes to offer our clients.

In technical terms, **ezarri** recommends the use of epoxy joints mortars. Apart from offering a wide range of colors and effects, such joints have excellent technical specifications; they are damp-resistant, water-repellant and have great durability. Moreover, this type of joint does not absorb stains, offering total cleanliness and hygiene.

The use of epoxy joints is linked to the use of specific tools and finishing products, both of which are also supplied by **ezarri**. We recommend you use these specific tools and products in order to ensure a perfect finish and results.

JUNTAS EPOXY

EPOXY JOINTS • JOINTS ÉPOXY

ezarri hace de las juntas un elemento esencial en sus propuesta de colorido. El componente estético de las juntas es importantísimo y conjugándolo con las colecciones de mosaico **ezarri**, dan unos resultados sorprendentes. La combinación de colores entre mosaico y junta nos ha permitido desarrollar una propuesta cromática que ponemos a disposición de nuestros clientes.

Blue Moon Joint: Blue Zaffiro 350 Spotlight

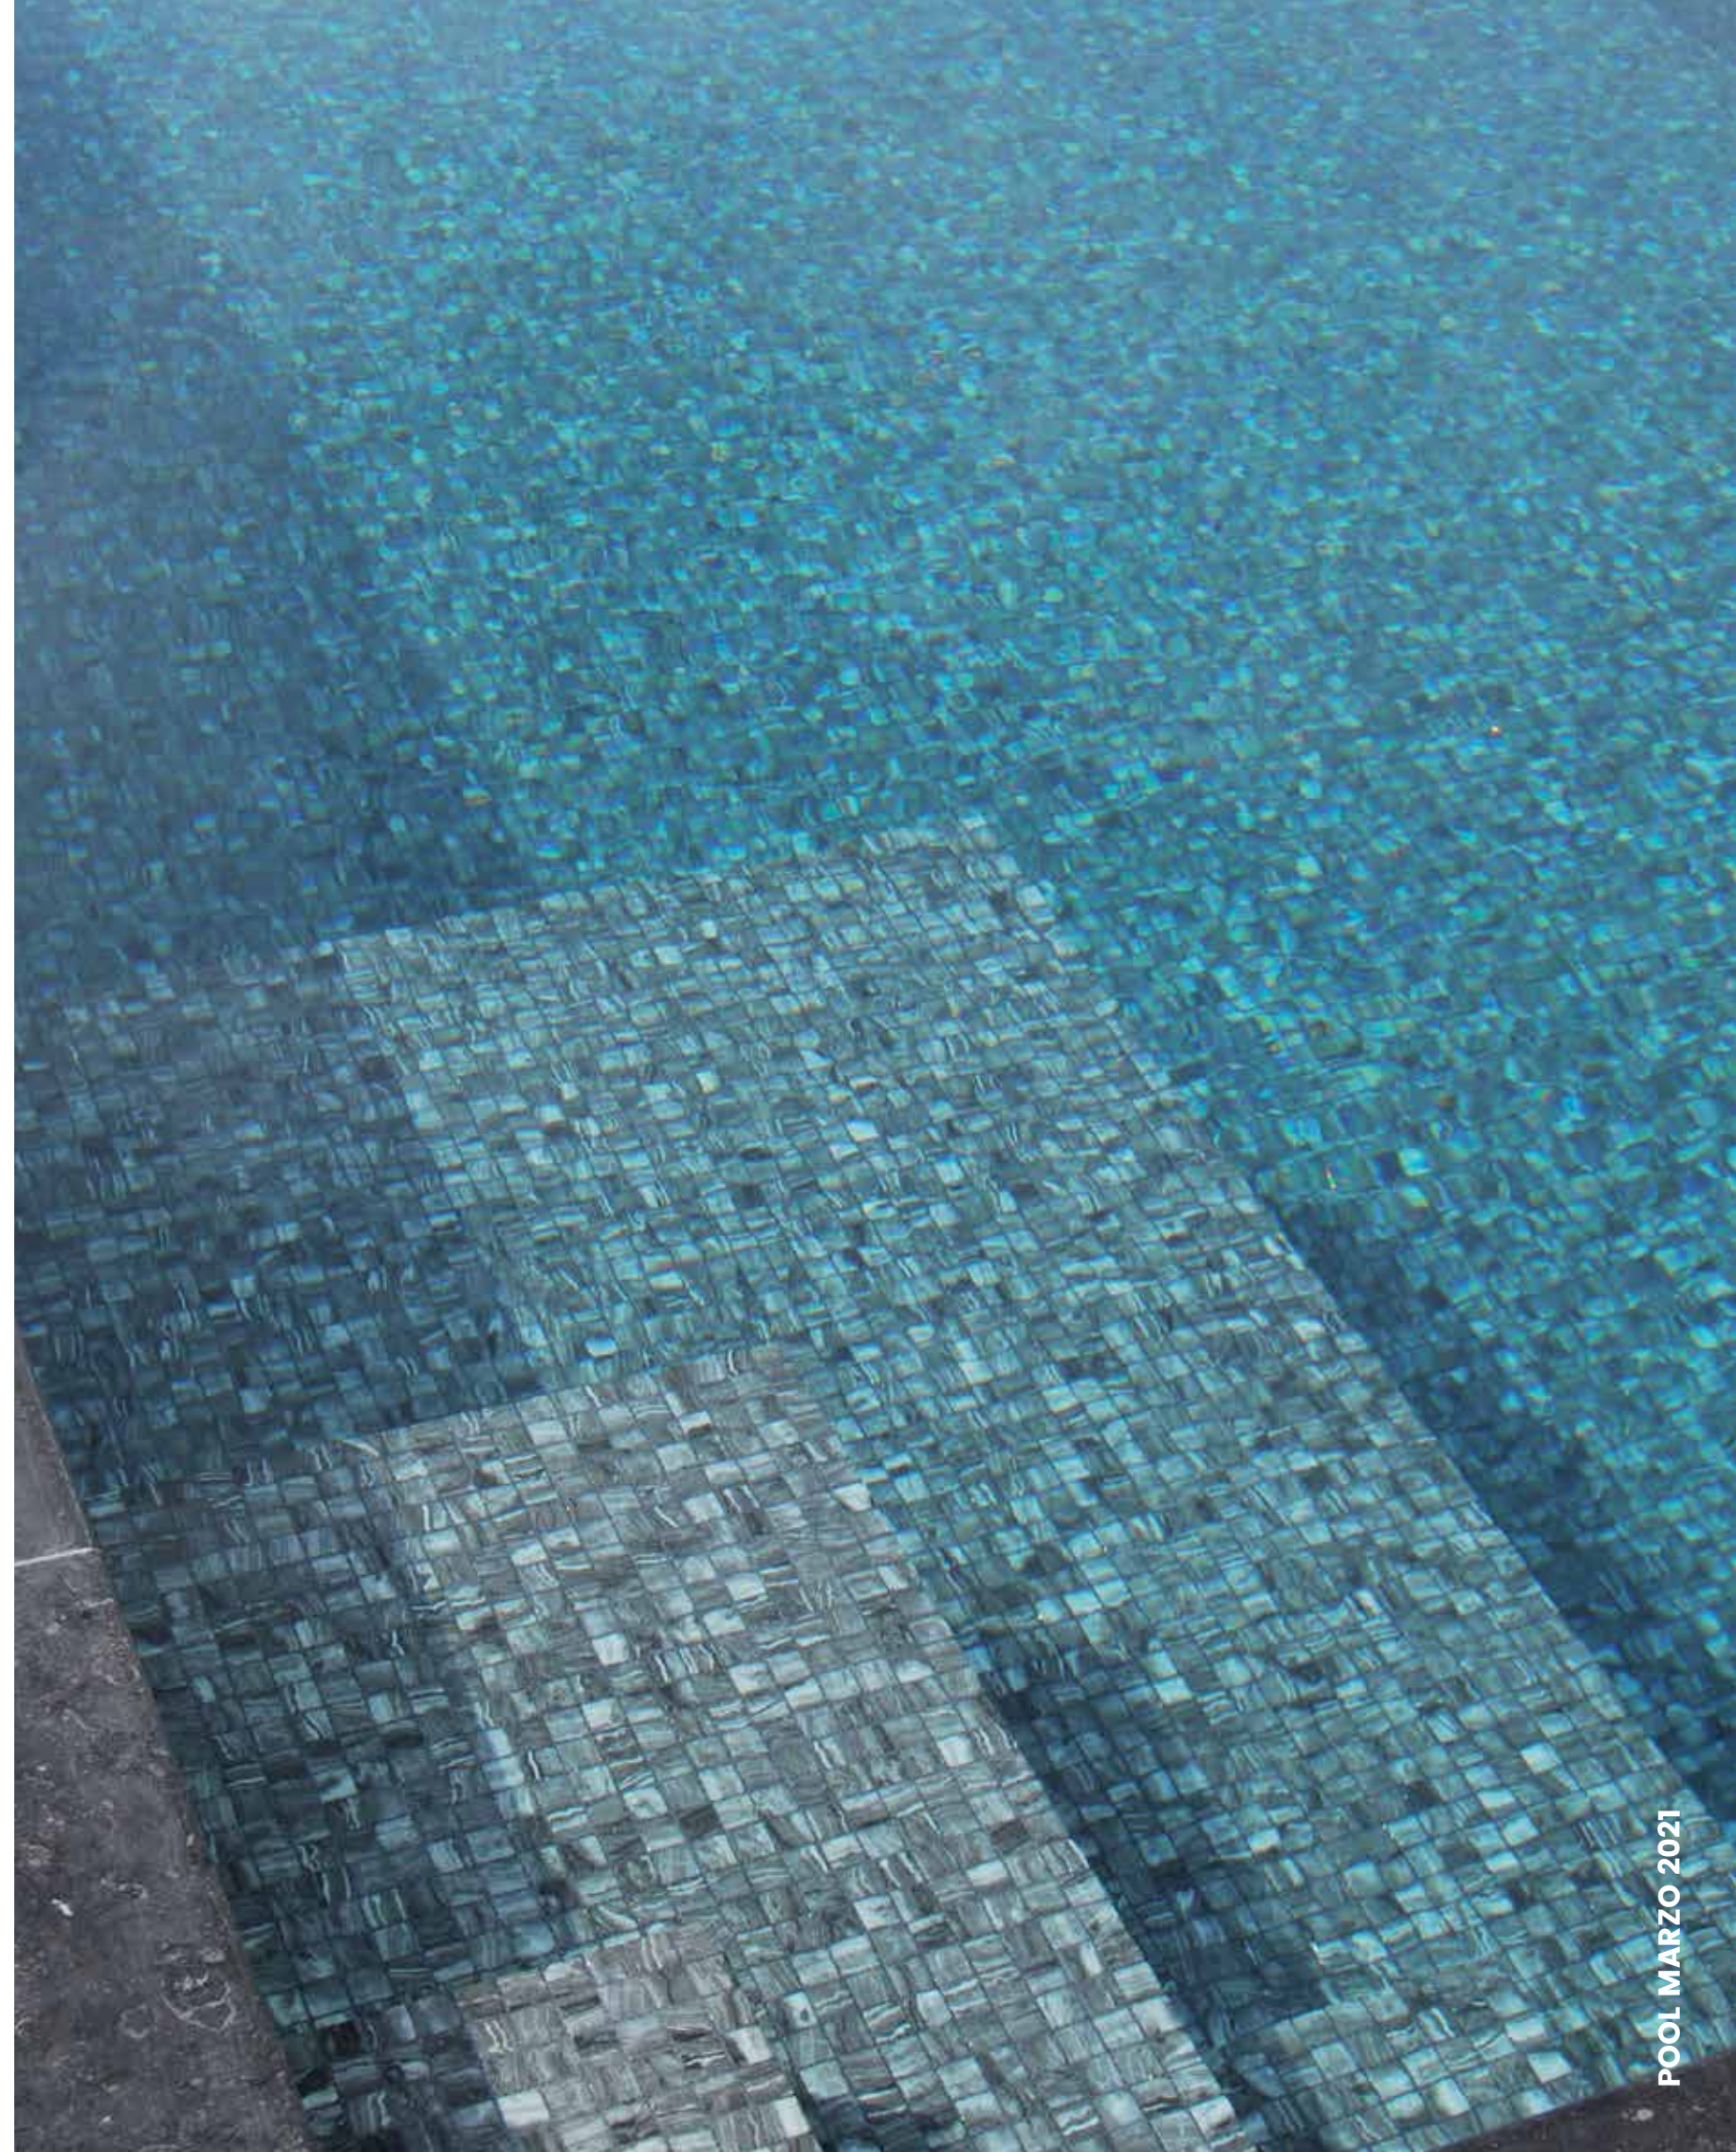

Técnicamente hablando, **ezarri** aconseja la utilización de juntas epóxicas. Además de contar con una amplia gama de colores y efectos, estas juntas tienen unas características técnicas excelentes; son insensibles a la humedad, repelen el agua y ofrecen una gran durabilidad. Además, las manchas no penetran en la junta por lo que la limpieza e higiene son totales.

La utilización de juntas epóxicas va vinculada a la utilización tanto de herramientas específicas, como de productos de finalización de obra. Ambos son suministrados también por **ezarri**. Recomendamos la utilización de estas herramientas y productos específicos para que la finalización y el resultado de la obra sean los idóneos.

Pour **ezarri**, les joints sont un élément essentiel dans ses propositions de coloris. Le composant esthétique des joints est déterminant et leur mélange avec les collections de mosaïque **ezarri** fournit des résultats réellement surprenants. La combinaison des couleurs de la mosaïque et du joint nous a permis de développer une offre chromatique que nous mettons à la disposition de nos clients.

D'un point de vue technique, **ezarri** recommande d'utiliser des joints époxy. Leur gamme de couleurs et d'effets est très large et ils possèdent d'excellentes caractéristiques techniques : ils sont insensibles à l'humidité, repoussent l'eau et fournissent une grande durabilité. D'autre part, les taches ne pénètrent pas dans le joint, ce qui permet un nettoyage et une hygiène absolument parfaits.

La mise en place de joints époxy implique l'utilisation d'outils spécifiques et de produits finisseurs. L'ensemble est fourni par **ezarri**. Nous conseillons vivement d'utiliser tous ces éléments pour que les finitions et le résultat de l'ouvrage soient optimaux.
